Subject: Downtown Verona Comprehensive Draft Plan

Dear Bruce -

I am writing you to express my concerns over the recent comprehensive draft plan dated August 18, 2008 for Downtown Verona. In the plan, the intersection of Main Street and Verona Avenue includes a proposal to eliminate vehicular access directly onto Main Street. I currently patronize affected businesses including Park Bank and am very happy that I have access to them directly from Main Street and Verona Avenue. A 'rear-loaded' approach would add congestion and confusion to access.

Thank you for your consideration of my thoughts.

Sincerely,

Lynn M. Adams
