

DID YOU KNOW...

Main St. could become one way northbound

And ALL southbound traffic through

Verona may run down Shuman St.?

IT'S TRUE. This is one of four proposed options to “solve” traffic congestion at Highway M/Main St. & Verona Ave. and to handle future traffic flow as Verona continues to grow. (It’s called a “paired one-way”—This portion of Main St. would also become one-way with all northbound traffic – see attached map). *This plan could possibly further increase “cut-through” traffic on Marietta & Westlawn as cars try to avoid the one-way and obtain quicker access to West Verona Ave.*

WHAT CAN YOU DO ABOUT IT?

PLEASE fill out the **COMMENT CARD** attached to this flyer and return it to City Hall in the envelope provided. Your comments will be copied and attached to the draft plan which will be read by the City Council when considering which traffic “solution” to pursue. This could happen as soon as one year from now. *It is vital to let the Planning Commission and the City Council know your views.*

NO COMMENT = NO PROBLEM

For more detailed information on this issue, including maps, visit the city’s website at <http://www.ci.verona.wi.us/> (click on “Comprehensive Plan Information”, then “Draft Chapters”, then “Chapter 3 – Transportation” – be sure to view Appendices for maps of all proposals
